DISCOVER MORE

SINGAPORE COOPERATION PROGRAMME

The Singapore Cooperation Programme (SCP) has been formally established since 1992 to extend technical assistance to developing countries. The SCP conducts courses, workshops, and study visits for foreign government officials in areas where Singapore has expertise in.

To date, we have close to 150,000 alumni, from more than 180 developing countries, territories, and intergovernmental organisations.

★ ≡ **♦ ▶** FOREWORD

"Now, more than ever, global cooperation and solidarity are critical if we are to rise to the challenges of our time, particularly in dealing with the global commons."

The Singapore Cooperation Programme (SCP) was established in 1992 as a way to pay it forward to the international community for the assistance we received during our early years. Over the past 30 years, the SCP has focused on enhancing capacity-building in our fellow developing countries, training close to 150,000 foreign officials since its inception. This underscores our belief in human capital as the single most important resource for a country's development.

The world today is confronted by a perfect storm of overlapping and urgent challenges, ranging from global health and infectious diseases to climate change and extreme weather patterns, a food and energy crisis, disruptions caused by digital technologies, and geostrategic challenges with contestation, rivalry and even war in parts of the world. Now, more than ever, global cooperation and solidarity are critical if we are to rise to the challenges of our time, particularly in dealing with the global commons.

Climate change is a clear and pressing priority which can only be addressed through effective collective action. The SCP will give greater focus to the global sustainability agenda this year, with the launch of a new Sustainability Action Package (SAP) to support the capacity-building needs of developing countries on sustainability and climate change. The SAP will cover key areas such as strategies for adaptation and resilience-building, managing and financing green projects, low carbon development and carbon markets. Through the SAP, we hope countries will work together to share knowledge and spur new ideas to forge a more sustainable future. In line with our support for the 2030 Agenda for Sustainable Development, Singapore will continue to share our experience in areas of interest to developing countries, including public health governance, digitalisation and education.

Let us continue to work together to protect the global commons and build an even better world for all.

Dr Vivian BalakrishnanMinister for Foreign Affairs

Vulglulez.

SCP FOR SDGS

SCP AT A GLANCE

The Singapore Cooperation Programme (SCP) supports the efforts of developing countries to implement the 2030 Agenda for Sustainable Development and its 17 Sustainable Development Goals (SDGs).

Singapore also works with like-minded partners, such as the United Nations Children's Fund (UNICEF) and the United Nations Office for Disaster Risk Reduction (UNDRR), to pool collective expertise towards capacity-building for the SDGs.

As you browse this calendar, look out for the SDG icons that link each course to the 2030 Agenda.

APPLICATION PROCEDURE

The SCP offers two types of courses to cater to different learning needs:

- Online courses
- In-person courses in Singapore

BROWSE

- Access SCP website
 - www.scp.gov.sg

- Search for courses of interest.
- Review detailed course* information and check your eligibility.

*Courses will be published on our website two to three months before the course start dates. Please refer to our website for the latest details.

APPLY

ONLINE COURSE

- Follow the instructions to submit your application.
- You may save your application as a draft for up to three days (after which the draft will be deleted).

REVIEW & SUBMIT

ONLINE COURSE

IN-PERSON COURSE

- Please ensure that all information provided is accurate before submission.
- All applications must be submitted online before the nomination deadline.
- Upon successfully submitting an application, an acknowledgement email with a link to your application will be sent to you.
- Your supervisor and National Focal Point for Technical Assistance will need to endorse the application via an email link.

CONFIRM

- Successful applicants will receive an invitation (via email) to participate in the course.
- Please accept the invitation to confirm your attendance as early as possible.
- You will be notified via email if your placement is successful.
- You will be required to submit your travel documents (e.g. flight ticket) for verification. Please do so promptly to confirm your placement.

SUSTAINABILITY

Climate change is a clear and pressing priority. To combat climate change and its impacts, countries must collectively leverage green opportunities. Marking the launch of the Sustainability Action Package, this cluster will cover a suite of new sustainability-themed courses to share Singapore's journey towards a low-carbon and climate resilient future, covering adaptation and resilience-building strategies, green project management and financing, low carbon development, and carbon markets.

Sustainable Financing of Cities

PARTICIPANT PROFILE

Mid- to senior-level government officials involved in the financing of urban infrastructure.

SYNOPSIS

This course will touch on the sustainable financing of urban infrastructure initiatives through a holistic approach that considers interlinked issues such as environmental, social, and governance.

TOPICS

- Sustainable financing of cities and urban development
- Project financing from the perspectives of lender and financier
- Enhancing the bankability of projects from the perspectives of developer and investor
- Singapore case studies and applying them internationally

▲ IN-PERSON COURSE

31 MAR 2023

COURSE DATES

15 - 19 MAY 2023

Clean Energy and Emission Reduction

PARTICIPANT PROFILE

Mid- to senior-level government officials involved in policymaking for sustainability and energy solutions.

▲ IN-PERSON COURSE

NOMINATION **DEADLINE**

20 APR 2023

SYNOPSIS

This course will focus on Singapore's multi-agency engagement in formulating clean and renewable energy solutions to achieve a balance between development and climate action obligations. It will also touch on the importance of collective mitigative actions on a global scale.

COURSE DATES

2023

TOPICS

- Introduction to clean energy resources and technologies
- Energy and climate security
- Sustainable and clean energy governance issues
- Renewable energy and Clean Development Mechanism (CDM) adoption and implementation

5 – 9 JUN

Carbon Accounting

PARTICIPANT PROFILE

Mid- to senior-level government officials involved in policymaking for sustainability and the environment.

SYNOPSIS

This course will provide an introduction to carbon accounting and national Greenhouse Gas (GHG) inventories.

TOPICS

- GHG Protocol and 2006 Intergovernmental Panel on Climate Change (IPCC) Guidelines for National GHG Inventories
- Guidelines and best practices on setting national GHG emissions goals
- Approach to carbon accounting
- GHG inventory systems

▲ IN-PERSON COURSE

NOMINATION **DEADLINE**

26 MAY 2023

COURSE DATES

10 - 14 JUL 2023

Climate Change Adaptation and Mitigation Strategies

PARTICIPANT PROFILE

Mid- to senior-level government officials involved in policymaking for sustainability and environmental conservation.

SYNOPSIS

This course will cover the environmental challenges arising from climate change, and Singapore's adaptation and mitigation strategies to address them.

TOPICS

- Understanding climate change risks and impacts
- Adaptation strategies in urban environments, with a focus on access to freshwater and food, health and transportation
- Mitigation policies and technologies, including mitigation to sea level rise (SLR)
- Singapore's environmental sustainability journey and Singapore Green Plan 2030

▲ IN-PERSON COURSE

NOMINATION **DEADLINE**

7 JUL 2023

COURSE DATES

21 - 25 AUG 2023

Managing Coastal Biodiversity under Urbanisation Pressures

PARTICIPANT PROFILE

Mid- to senior-level government officials involved in coastal management.

SYNOPSIS

This course will share Singapore's approach to protect and manage coastal biodiversity in the face of intense urbanisation. It will also examine the impact of climate change on achieving the Sustainable Development Goals from the aspect of coastal ecosystem services.

TOPICS

- Ecosystem services and benefits
- Responses to urbanisation and impact of climate change
- Enhancing biodiversity of the urbanised coastal environment
- Management approaches relevant to urbanisation, climate change adaptation and mitigation
- Singapore Green Plan 2030

▲ IN-PERSON COURSE

21 JUL 2023

COURSE DATES

4 - 8 SEP2023

Introduction to Carbon Market

PARTICIPANT PROFILE

Mid- to senior-level government officials involved in policymaking for sustainability and the environment.

SYNOPSIS

This course will provide an introduction to carbon markets as well as carbon offsetting projects.

TOPICS

- Carbon pricing instruments
- Voluntary and compliance carbon markets, including emissions trading schemes and Article 6
- Carbon credits and carbon offsetting projects
- Environmental integrity principles

▲ IN-PERSON COURSE

NOMINATION **DEADLINE**

11 AUG 2023

COURSE DATES

25 - 29 SEP 2023

Introduction of New Energy Trends: From Carbon Capture to Hydrogen Economy

PARTICIPANT PROFILE

Mid- to senior-level government officials involved in policymaking for sustainability and energy solutions.

SYNOPSIS

This course seeks to provide an overview of renewable and low carbon energy technologies, with a focus on the use of hydrogen as a green fuel.

TOPICS

- · Mechanisms of global warming
- Working principles of different technologies for reducing carbon emissions
- Evaluating renewable and low carbon energy technologies
- The use of hydrogen as a green fuel, including challenges in establishing a hydrogen economy

▲ IN-PERSON COURSE

NOMINATION DEADLINE

1 SEP 2023

COURSE DATES

16 – 20 OCT 2023

Sustainable Waste Management and Smart Urbanisation

PARTICIPANT PROFILE

Mid- to senior-level government officials involved in policymaking for sustainability and environmental conservation.

SYNOPSIS

This course will explore Singapore's multi-agency approach in formulating and implementing nature-based solutions (NBS) and closing the waste loop to enhance urban resilience in the face of climate change challenges.

TOPICS

- Sustainability and sustainable pathways in urban development and population growth
- Climate-smart land use planning and sustainable buildings
- Waste-to-Energy, Waste-to-Resource and circular economy
- Addressing land-based marine litter
- Sustainable food innovations for urban environments

15 DEC 2023

COURSE DATES

29 JAN – 2 FEB2024

Sustainable Integrated Water Resources Management

PARTICIPANT PROFILE

Mid- to senior-level government officials involved in integrated water resources management.

SYNOPSIS

This course will discuss Singapore's approach to integrated water resource management to manage the effects of extreme weather conditions brought on by climate change.

TOPICS

- Water sustainability and circular economy
- Stormwater management and Active, Beautiful and Clean Waters (ABC Waters) Programme
- Coastal protection for climate resilience
- Adapting water management to climate change

▲ IN-PERSON COURSE

NOMINATION **DEADLINE**

19 JAN 2024

COURSE DATES

4 - 8 MAR 2024

Building Smart and Sustainable Cities

PARTICIPANT PROFILE

Mid- to senior-level government officials involved in policymaking for urban development and smart city development.

▲ IN-PERSON COURSE

NOMINATION **DEADLINE**

2 FEB 2024

COURSE DATES

18 - 22 MAR 2024

SYNOPSIS

Centered around the Singapore Liveability Framework, this course will equip participants with the knowledge and skills required to manage technologies against the backdrop of changing economies, ecological and social systems to build a smart and sustainable city.

TOPICS

- Integrating technologies with changing economies, ecological and social systems
- Environmental management through smart modelling and public engagement
- · Building community resilience
- Singapore's Smart Nation endeavours

PUBLIC HEALTH

As countries recover from the COVID-19 pandemic, it is essential to enhance the healthcare systems to meet the ever-evolving needs of the population. This cluster features a dynamic range of courses covering various aspects of public health, including pandemic preparedness, healthcare sustainability, and digital transformation in healthcare.

SCAN HERE TO APPL'

26 —	Responding to Pandemics and Future Preparedness 10 – 14 Jul 2023
27 —	Digital Transformation in Public Healthcare 9 – 13 Oct 2023

29 —	Healthcare Management 18 – 22 Mar 2024

Responding to Pandemics and Future Preparedness

PARTICIPANT PROFILE

Mid- to senior-level government officials involved in public health as well as planning for and managing pandemic response.

SYNOPSIS

This course will cover Singapore's experience in responding to pandemics and the lessons learnt. It will also explore strategies to better prepare for the next "Disease X".

TOPICS

- Lessons from pandemics, including the COVID-19 pandemic
- Vaccine development, strategies and considerations for future pandemics
- Regional capacity in responding to pandemics
- Information pathways and decision-making in pandemics
- Risk communication and community engagement in pandemics

COURSE DATES

10 – 14 JUL 2023

Digital Transformation in Public Healthcare

PARTICIPANT PROFILE

Mid- to senior-level government officials involved in healthcare and social planning.

SYNOPSIS

The use of digital technologies enables the delivery of better patient experiences and improved health outcomes. This course will discuss best practices and technologies in the healthcare industry's digital wave.

▲ IN-PERSON COURSE

NOMINATION DEADLINE

25 AUG 2023

COURSE DATES

9 – 13 OCT 2023

TOPICS

- Telemedicine and Artificial Intelligence-enabled medical devices
- Blockchain electronic health records
- Data sharing among healthcare providers
- Use of technology in decision-making about treatment plans and health outcomes

Urban Health Security

PARTICIPANT PROFILE

Mid- to senior-level government officials involved in public health.

SYNOPSIS

Limiting the impact of acute events on public health in cities is a key component of urban health security. This course will provide insights into Singapore's unprecedented measures to safeguard public health during a pandemic.

TOPICS

- Building national capacities and capabilities to respond to outbreaks effectively
- Use of technology in urban health preparedness
- Risk communication, community engagement and protecting vulnerable groups
- Policy implementation at hospitals and primary care institutions
- Building community resilience and enhancing participatory governance

2 FEB 2024

SYNOPSIS

This course will provide an overview of Singapore's healthcare system, and how it has evolved to meet current and future challenges.

COURSE DATES

18 - 22 MAR 2024

TOPICS

- Provision of accessible, affordable and quality healthcare
- Upstream approaches and interventions to holistic healthcare
- Singapore's whole-of-government response to pandemics and major disease outbreaks
- Harnessing technology to improve healthcare outcomes
- Promoting long-term and sustainable population health

28 _ PUBLIC HEALTH

RESILIENCE BUILDING

In a world characterised by disruptions and flux, it is crucial for governments worldwide to anticipate and mitigate the negative impacts. This cluster examines policy innovation aimed at strengthening national capabilities to build a more cohesive and resilient society. It covers a broad range of topics from promoting mental health resilience and fostering inclusivity to future-proofing our workforce.

30 JUN 2023

SYNOPSIS

This course will cover Singapore's national food control system and strategies to improve food safety and security.

TOPICS

- Food safety policy and legal framework
- Risk-based food inspection system
- · Food safety testing capabilities, chemical and microbiological risk analysis
- Ensure safety of food that is locally produced and processed
- Strategies and initiatives in ensuring food security

COURSE DATES

14 - 18 AUG 2023

Education Transformation for Policymakers: The Singapore Experience

PARTICIPANT PROFILE

Mid- to senior-level government officials involved in policymaking for education.

SYNOPSIS

This course will elaborate on Singapore's evolving education system, particularly the models of teacher and school leadership training.

TOPICS

34 _ RESILIENCE BUILDING

- Critical success factors for Singapore's successful transformation of its education system
- Best practices in Singapore's education transformation
- Cultivating future-ready schools and preparing future-ready citizens
- Identifying emerging educational trends and issues facing countries amidst a competitive global environment

▲ IN-PERSON COURSE

11 AUG 2023

DEADLINE

SYNOPSIS

This course will share Singapore's experience in moving towards a fairer and more inclusive society where men and women partner each other as equals and both can pursue their aspirations freely and fully.

COURSE DATES

25 – 29 SEP 2023

TOPICS

- Singapore's experiences in promoting equality between men and women
- Legislative provisions and policies for supporting women
- Relevant initiatives from the private and public sector to promote equal opportunities for women
- Public engagement and consultation on women's development

Industry 4.0 for TVET Leaders: Technologies, Threats and Opportunities

PARTICIPANT PROFILE

Mid- to senior-level government officials involved in Technical and Vocational Education and Training (TVET).

SYNOPSIS

This course will introduce Singapore's Industry 4.0 transformation journey in TVET. It will also explore Singapore's approach in developing human capital and supporting the workforce to pick up new skills and prepare for new opportunities.

TOPICS

- Introduction to key technologies in Industry 4.0 such as blockchain and Internet of Things (IoT) and the potential of such technologies
- Benefits and challenges of new technology developments to governments, industries and the workforce
- Impact of Industry 4.0 on the education sector with a focus on TVET
- Singapore's SkillsFuture programme a national skills upgrading and training movement

Smart City: Envisioning Smart Urban IoT Solutions and Emerging Technologies Management

PARTICIPANT PROFILE

Mid- to senior-level government officials involved in technology and Internet of Things (IoT)-related projects.

▲ IN-PERSON COURSE

NOMINATION **DEADLINE**

9 JUN 2023

SYNOPSIS

Knowledge of IoT, its enabling technologies and best practices will support organisations in achieving their smart city objectives. This course provides insights on suitable applications and solutions for real world challenges in a user-centric manner.

COURSE DATES

24 - 28 JUL 2023

TOPICS

- Introduction to IoT and IoT lifecycle
- IoT envisioning and evaluation framework
- Overview of cloud IoT services
- Service design in IoT
- IoT trends and security
- Management of emerging technologies such as blockchain, autonomous vehicles and Artificial Intelligence

Robotic Process Automation for Leaders

PARTICIPANT PROFILE

Mid- to senior-level government officials intending to use Robotic Process Automation (RPA) as a solution to improve their agency's work processes.

SYNOPSIS

RPA has gained traction in the public service as a means to automate high volumes of repetitive and manual work processes. This course will present Singapore's experience in implementing RPA in public agencies and equip participants with foundational skills and knowledge for successful RPA implementation.

TOPICS

- Introduction to RPA, its key features, functions, capabilities, risks and challenges
- Identify suitable work processes for automation and using RPA to complement process improvement methodologies
- Identify organisational factors for successful RPA implementation
- End-to-end RPA implementation approach
- Build an RPA bot using UiPath

Integrated Cybersecurity Management and Systems

PARTICIPANT PROFILE

Mid- to senior-level government officials who are involved in cybersecurity policy planning and enforcement.

@ ONLINE COURSE

NOMINATION **DEADLINE**

20 OCT 2023

SYNOPSIS

The pervasiveness of the Internet of Things and internet connectivity has brought about an unprecedented level of convenience to our lives. This growing dependence has also led to new vulnerabilities which can be easily exploited by malicious actors. This course shares Singapore's experience in adopting best practices in cybersecurity.

COURSE DATES

4 - 8 DEC 2023

TOPICS

- Singapore: A Smart Nation vision
- Role of public institutions in smart city security
- Cybersecurity concerns: Threats and attacks
- Data and intelligence in cybersecurity
- Robust cybersecurity defence
- Governance and risk management

Industry 4.0 and Innovation Management

PARTICIPANT PROFILE

Mid- to senior-level government officials involved in innovation management and policymaking pertaining to industry and workforce development.

SYNOPSIS

The course will explore the evolving innovation landscape, the transformative and disruptive potential of new technology developments, and Singapore's strategy in harnessing innovation for sustainable economic growth in a knowledge-based economy.

TOPICS

- Introduction to Industry 4.0: Drivers, challenges and regulatory considerations
- Strategies for innovation and intellectual property operations in a knowledge-based economy
- The role of government in innovation and technology policy formation
- The development of financial technology and digital inclusion
- Singapore's innovation management and ecosystem

International Law of the Sea

PARTICIPANT PROFILE

Mid- to senior-level government officials from the foreign affairs, marine and environment departments involved in issues related to the Law of the Sea.

ONLINE COURSE

NOMINATION **DEADLINE**

11 AUG 2023

With a focus on the 1982 United Nations Convention on the Law of the Sea (UNCLOS), this course will cover the rights and obligations of States in the various maritime zones, as well as the role of key international organisations.

COURSE DATES

25 - 29 SEP 2023

TOPICS

SYNOPSIS

- Overview of international law and Law of the Sea
- Maritime boundary delimitation and economic zones
- UNCLOS dispute settlement mechanisms
- Maritime scientific research
- Emerging topics affecting UNCLOS

Maritime Public Leaders' Programme

PARTICIPANT PROFILE

By invitation only.

SYNOPSIS

This programme will provide a conducive learning and sharing platform for senior officials in maritime administrations to exchange ideas and discuss emerging trends that are affecting the industry.

TOPICS

- Shipping economics
- Public policy and governance
- Maritime risk management in challenging times
- Digitalisation of the maritime industry
- Crisis communications management

TOPICS

- Investigation methodology and management
- Roles of investigators, accredited representatives and their advisers in international investigations
- Aircraft accident sites and hazard management
- Aviation medicine and pathology
- Safety management systems for aircraft accident investigations

Located in Singapore, the International Monetary Fund (IMF)-Singapore Regional Training Institute (STI) is the IMF's regional training centre for the Asia-Pacific region. It provides training and technical assistance on macroeconomic and financial management. It also offers courses on legal and statistical issues to government officials from 37 countries. The STI is jointly funded by the IMF, Singapore and Japan, who together guide the STI's programme. Since its establishment in 1998, the STI has provided training to over 20,000 officials through courses in Singapore and the region. The STI also hosts high-level events and is increasingly becoming a platform for peer-to-peer learning.
